

ACTUAL RELIEF!

"I have been using my ClearUP for about ten days and notice a big difference immediately after using it if I am experiencing sinus pain or congestion. It also helps instantly clear up sinus headaches for me, too! Seriously, it's a little miracle tool, a must-have for anyone who suffers from allergies constantly."

— SARA M.

AMAZING PRODUCT

"I've been nasally congested for about a year now, and for a week I couldn't breathe through my nose while sleeping. That's when I chose to buy this device, and right after my first time using it, I experienced relief. I'm now able to breathe through my nose again and I've also regained my sense of smell. So grateful!"

What is ClearUP?

ClearUP Sinus Pain Relief is a small, bioelectronic handheld device that uses gentle microcurrent to treat symptoms of nasal inflammation such as sinus pain, sinus headaches, and congestion. It is a non-invasive, drug-free treatment intended to provide temporary relief for adults 18+ years old.

Clinically Proven. FDA Approved.

Clinical research proves ClearUP bioelectronic sinus device is safe and effective for both short- and long-term sinus treatment. ClearUP is nationally recognized by doctors and leading medical institutes for providing precise, targeted treatment to patients with real-time results.

88% of patients experienced congestion relief

82% of patients prefer ClearUP over other allergy treatments

74% of patients reported pain relief on the first use

10 min after treatment, patients reported relief of sinus pain

"It's very exciting to have this whole new form of treatment using extremely safe neuromodulation as a way to address the needs of the patient."

—DR. ALAN B. GOLDSOBEL, MD

Clinical Professor, University of California San Francisco
Allergy & Asthma Associates of Northern California

How It Works

When a user glides ClearUP along the cheek, nose, and brow bone, ClearUP emits gentle microcurrent stimulation.

This process stimulates the nerves that pass through the sinus passages. Vibration guides users to the optimal treatment points to relieve sinus pain, pressure, and congestion.
